

C45D DIN Rail Indicator

LFDIN Rail Buzzer and Bell

1. General

Mainly used to indicate the status of a (sub)part of the installation, heater, motor, fan and pump etc.

2. Specifications

Rated voltage: 230VAC
Lamp: Neon lamp, LED
Lens color: Red, green, orange and transparent
Degree of protection: IP20
Connection: 1-25mm² rigid conductor
Mounting: DIN rail EN60715

1. General

Be applicable to circuit and rated current not exceeding 63A, supplying the function of sound warning and prompting.

2. Specifications

Comply with IEC 61558-1
Primary voltage: 230VAC
Rated frequency: 50/60Hz
Insulation voltage: 4kV
Connection: 1-16mm² rigid conductor
Mounting: DIN rail EN60715

3. Overall and mounting dimensions(mm)
