

MK General Relay

1. General

MK2P 3P general relay is widely suitable for DC or AC circuit switching in various automation devices, process control and communication devices, process control and communication equipments etc.

It is characteristic of stable performance, high reliability, capable of making and breaking relatively large load current, easy in maintenance and inspection as well as long service life. The plug-in base of the relay is suitable for using with standard 8 and 11pins socket.

2. Specifications

Contact capacity		DC24V AC220V 5A
Coil voltage	DC	6 12 24 48 60 110 220V
	AC	6 12 24 48 110 127 220V
Coil power		DC≤1.2W
		AC≤2.5W
Insulation resistance		500m Ω
Contact resistance		≤50m Ω
Dielectric strength		AC1500V
Service life	Mechanical	10 ⁴ times
	Electrical	10 ³ times
